INDEPENDENT DENTAL HEALTH PLAN

THE AFFORDABLE ALTERNATIVE

# Enjoy flexible, affordable dental care with our Independent Dental Health Plan

Regular attendance to see your dentist and dental hygienist helps us to improve and maintain your oral health. There is clear evidence within our practice that patients who attend regularly for examinations and hygiene appointments tend to require less dental treatment overall.

Our Independent Dental Health Plan represents fantastic value, spreads the cost of your regular dental care and provides you with easy access to high quality dental treatment when required. Members are guaranteed quality time with their dental health professionals, access to superior dental materials and treatments, plus great reductions in the cost of cosmetic dental treatment.

## What else do you need to know?

If you like the predictability of fixed costs for your dental treatment the Independent Dental Health Plan could be perfect for you. We have designed the plan so the cost of your regular dental examinations and hygiene appointments are covered by an affordable monthly payment of £10.50.

You may have to undertake a course of treatment prior to joining the plan so that you are dentally fit before you become a member of the plan.

## That is less than 35 pence a day for your regular dental care.

*When you do require dental treatment there are two levels of fees:*

**Treatment provided under level 2 is £95.00 for each item of clinically required treatment**

**Treatment provided under level 3 is £425.00 for each item of clinically required treatment**
